

Research Internship

| ECTS | Internship |
|------|-------------------------|
| 27 | Between 20 and 24 weeks |

| | |
|---|---|
| Mention du master transmettant la fiche UE : | Chimie et Sciences des Matériaux |
| Composante de gestion de l'UE : | Faculté des Sciences – Département de Chimie |
| Responsable de l'UE : | Nathalie SINTES |
| Statut du responsable : | MCF |

SPECIFIC SKILLS

Knowledge in Materials Science (compulsory and elective theoretical courses of MSD)

PROGRAM

The research internship aims to prepare students to Research through the research
The internship will take place in reasearch or academic laboratory. The deliverables are a training report and an oral presentation.

SPECIFIC SKILLS

- Planifying and conducting research activities
- Developing initative and autonomy
- Self assessing to improve scientific and transversal skills
- Employing theoretical knowledge in materials science with specific vocabulary
- Synthesizing and critically examining results
- Citing information sources
- Developing compelling elevator speech
- Writing a scientific report related to training results
- Presenting orally the training results
- Showing rigour
- Stress management
